**Commodity Code:** 6109100010

**Country of Origin:** Bangladesh

**Carton Dimensions (cm):** 250 x 400 x 600

**Icons:**

**Compliance:**

Our vision is to build a better future for our planet, working hard to ensure that environmental sustainability and low carbon impact is at the forefront of our thinking and innovation. As a responsible and ethical brand we ensure all of our manufacturing methods go above and beyond the ideals of our growing customer base, using only factories that are GOTS, RCS, SEDEX, BSCI or Oeko-Tex Certified

# Why use Organic Cotton?

Organic Cotton is grown using only natural fertilisers and non genetically modified seeds

→

Waste water is treated so no contamination is released into the environment

→

Finishing leaves no dye, bleach or chemical residue

## Ensures:

- Farmers can reuse seeds and grow mixed crops helping feed their families and reduce financial risk
- Workers in the supply chain are not exposed to any harmful chemicals or residues
- All factories are routinely inspected to ensure no forced or child labour

## Reduces:

- Water waste: Organic farming methods maintain soil quality meaning rain water is held in the soil so less water is needed
- The use of chemicals deemed harmful by the World Trade Organisation

## Did you know?

*Traditional cotton production uses 10% of world pesticides and 25% of world insecticides, strong chemical agents that pollute the ecosystem.*
